Objective

Seek a position as a Game Developer/Animator

Summary of Qualifications

HTML, CSS, JS
2D and 3D Animation
Sound Effects Designer

Education

Center for Technology - Essex
CTE provides many programs to help students get a head start in life. Students can also earn college credits to help them get classes done.
Computer Animation and Web Design Program
The CAWD program focuses on acquiring new media skills and fast paced and rapidly changing areas of Animation, Game Design, and Web Development
Vermont State University Python Programming

Work Experience

McDonald's Cashier 2022-2022 (Feb-May)
Provide a positive customer experience with fair, friendly, and courteous service.
Hannaford Center Store Associate 2023-Present
Stock shelves and maintain cleanliness around the store to provide an enjoyable environment for shopping.

Interests

Animation

I like animating rigs in Roblox Studio and Blender. I spend 1-2 hours on Roblox Studio practicing animation for a game I'm working on.

Map Design

I really like map design, mainly due to the fact you can create any landscape in a virtual world and walk around in it. I use VR/Unreal/Unity/Roblox Studio to do map design and it usually comes out pretty nicely.

Awards & Certifications
